Rollright battle against all weathers whilst fundraising for British Heart Foundation

Staff from Rollright Facilities have completed a sponsored trek up Mount Snowdon in order to raise funds for the British Heart Foundation. Over 20 employees, along with friends, family and clients made the trip on 19 April 2008.

Charlie Sinton, Commercial Director comments, "It was a great day, although the weather conditions were challenging with driving winds and snow on the upper slopes of the mountain. We all had a fantastic day, although the weather conditions made it a difficult walk! However, we would like to thank all those who made the effort to climb up on the day, and also to thank those who sponsored us."

Rollright have met their sponsorship target of £5,000 and have currently raised a total of £6,320, with money still coming in.

-Ends-

Editors Notes
